Sitewards Captcha Extension

Manual

Contents

1. Features

The Sitewards Captcha Extension provides functionality to add captcha to "Email to a Friend" form. These Captchas are not by default supported by Magento.

Die Captcha Extension provides following features:

1.1. adds Captcha for unregistered customer to "Email to a Friend" form,
1.2. configuration of the amount of E-Mails without Captcha,
1.3. you can configure "Number of emails without captcha" and "CAPTCHA Timeout (seconds)",
1.4. opens "Email to a Friend" form in popup window,
1.5. adds Product Name field to "Email to a Friend" form,
1.6. by default message field is filled by product description.
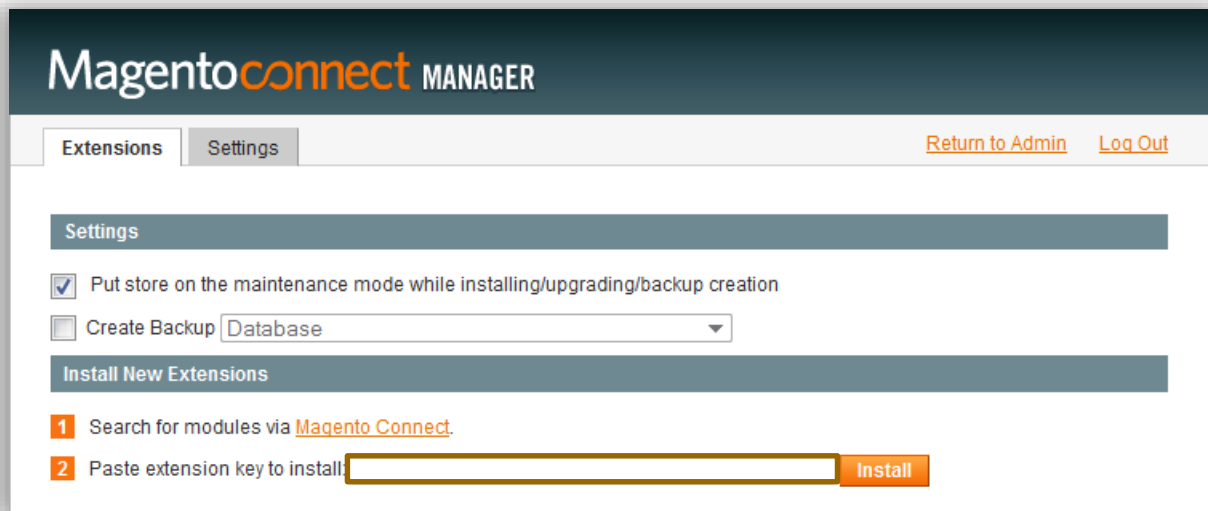

2. Requirements

2.1. Hardware

The same requirements as for Magento apply.

2.2. Software

Magento 1.4 or higher.

3. Installation

Sitewards B2B Professional can be downloaded with Magento Connect. In the backend of your site go to System→Magento Connect→Magento Connect Manager. Now log in with an administrator account.

In the "Extensions" tab you find the section "Install New Extensions". Here you can paste the Sitewards Captcha extension key. You can find it at:

http://www.magentocommerce.com/magento-connect/sitewards-captcha.html

Here select "Install Now", choose your Magento Connect version and copy the key. Paste the key and proceed to install.

4. Configuration

The extension can be configured in the backend (System → configuration → customers → customer configuration → captcha → email to a friend).

5. Settings

Sitewards Captcha can only be configured in the admin section. Following settings are customizable.

5.1. Captcha

5.1.1.

Enable CAPTCHA on Frontend	Ja ▾

Use this option to enable Captchas in the frontend. They have to be activated to use Captchas in the "Email to a friend" form.

5.1.2.

Forms	Create user
	Login
	Forgot password
	Checkout as Guest
	Register during Checkout
	Email to a Friend

Here you can choose in which forms Captchas should be used. To use this extension please also choose "Email to a friend". You can use the ctrl-key to select multiple items.

5.1.3.

Number of emails without captcha	3

This option sets the number of emails you can send without having to enter a Captcha. For the fourth email you would have to enter a Captcha.

5.1.4.

CAPTCHA Timeout (seconds)	3600

Here you can set the seconds after which the timer for the amount of mails that can be send without entering a Captcha resets itself to zero. The User will then be able to send the specified amount of emails without a Captcha again.
